

# CO:WRITER<sup>®</sup>

## SMARTAPPLET<sup>™</sup>

*Students Meet Writing and Technology Standards with...*

*Co:Writer SmartApplet,  
AlphaSmart<sup>®</sup> 3000 and Co:Writer 4000*

Students self-select words to write for meaning and write for purpose using content-specific words. Students build sentences using correct conventions early in the writing process and increase keyboarding proficiency.

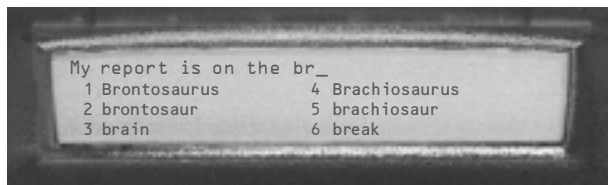

**Co:Writer SmartApplet™** by Don Johnston Incorporated  
*the grammar-smart word coach that builds better sentences for portable writing*

Co:Writer SmartApplet combines the industry-standard word prediction technology of Co:Writer and the mobility of the AlphaSmart 3000, enabling students to express their ideas easily and focus on the content of their writing. Co:Writer SmartApplet's high-quality word prediction lets students construct complete, grammatically correct sentences, and its Topic Dictionaries help students use appropriate topic-specific words. Available only for the AlphaSmart 3000.

**For Students Who:**

- need spelling support and mobility
- struggle with note-taking
- become frustrated with paper-pencil writing tasks

**AlphaSmart® 3000** by AlphaSmart, Inc.  
*the solution for writing—anywhere, anytime*

AlphaSmart 3000 brings a world of capabilities to all learners, but for struggling writers it offers a world of difference. Difficulties with taking notes in class, writing first drafts, and keeping assignments organized are all too familiar to some students. Students overcome these writing barriers and begin writing all the time and everywhere by using AlphaSmart's portable keyboard. All written material is stored in the keyboard until students transfer it to a personal computer for editing and revising or send it directly to a printer. The AlphaSmart 3000 is lightweight, rugged, compatible with any text application and easy to use. The AlphaSmart uses 3 AA batteries (over 500 hours of use) and connects to any computer for transferring information, making it simple to travel from home to school or from classroom to classroom.

*The AlphaSmart 3000*

**For Students Who:**

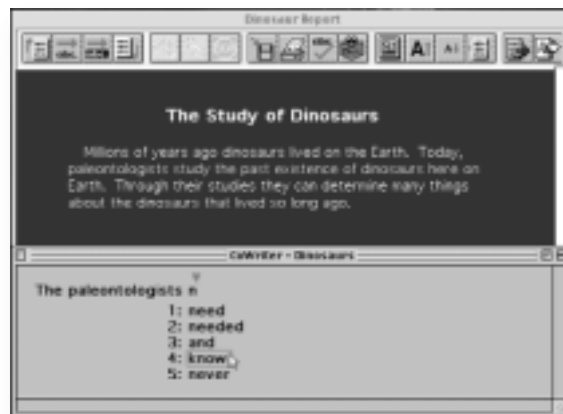

- need a portable writing solution
- struggle with writing legibly
- tend to misplace written notes and assignments

**Co:Writer® 4000** by Don Johnston Incorporated  
*the spelling- and grammar-smart word coach that builds BETTER sentences*

Co:Writer 4000 is the *talking* word prediction program used in thousands of classrooms every day! Co:Writer 4000 includes FlexSpell™ and Total Vocabulary System™—the tools students need to construct quality, content-rich sentences. Emerging writers use FlexSpell to write the words they want, even if they can only spell them phonetically. Developing writers get immediate grammar support to create good first sentences that are grammatically correct. Co:Writer 4000 makes it possible for students to practice the art of writing every day.

**For Students Who:**

- have limited grammar, spelling and vocabulary skills
- use phonetic approaches to spelling
- need auditory support

*Use Co:Writer 4000 to create Topic Dictionaries for Co:Writer SmartApplet*

**Co:Writer System Requirements:**

Co:Writer SmartApplet requires AlphaSmart 3000.

Co:Writer SmartApplet requires Macintosh OS version 7.6 or later, or Windows 95 or later.

Co:Writer 4000 requires Macintosh OS version 7.6 or later, or Windows 95 or later.
