

NEO BY ALPHASMART

The simple, portable,
low cost computer
companion

Neo is easy to use, light-weight, and affordable—designed to provide a wide range of computing capability on its own, and to integrate effortlessly with desktop and laptop computers. Like our popular AlphaSmart 3000, Neo offers a full-sized keyboard and extraordinary battery life, but adds a 50% larger display and twice as much memory. Neo is the ideal solution for maximizing classroom computer resources.

Classroom friendly

Neo is designed with students in mind. Instant on/off and autosave capabilities ensure students spend more time writing and less time distracted by the complexities of a computer. Students can take this light-weight and rugged learning tool anywhere—the classroom, home, or even on field trips—to write stories, take notes, brainstorm, journal, and more. With 700 hours or more of operation on 3 AA alkaline batteries, Neo can go anywhere and run up to a full school year.

More than just mobile

Neo's enhanced display and new font technology allow you to display up to twice as much text as its predecessor. Neo enables students to see more of their work on screen without scrolling. You can configure AlphaWord™ Plus, Neo's built-in word processor, to display from two to six lines of text. Use a larger font for younger students, or add more lines of text per screen to enhance the writing and editing

process for more advanced writers. Students can save hundreds of pages of text while still having extra room for SmartApplets®—software programs for extending Neo's versatility in the classroom.

To fine-tune writing skills, students can use AlphaWord™ Plus to spell check, reference the thesaurus, perform word or paragraph counts, or look up Spanish-English word equivalents.

Affordable and expandable

Neo offers a remarkably low total cost of ownership compared with other computer technology. You can provide one-to-one computing solutions to an entire classroom for a fraction of the cost of laptops. Plus, Neo's SmartApplet architecture allows you to easily add new functionality—keyboarding instruction, classroom quizzing, and outlining—so you can get more from your Neo investment.

Neo provides

- **An easy-to-read display—50% larger than the AlphaSmart 3000—and support for displaying from two to six lines of text onscreen in AlphaWord Plus.**
- **Instant on/off and autosave to eliminate startup delays and accidental data loss.**
- **AlphaWord Plus, an enhanced word processor that includes spell check, thesaurus, word and page count tools, Spanish-English word lookup, and more.**
- **Easy transfer of text to any Macintosh or Windows computer with a single keystroke.**
- **Built-in IrDA port for sending text or printing to IR-enabled devices.**
- **Superior battery life—more than 700 hours of use from three standard AA alkaline batteries—for extra cost savings and convenience.**
- **A software platform that allows you to add SmartApplets to easily increase Neo's functionality in the classroom.**

Neo includes

- Three AA batteries or rechargeable battery pack
- USB cable
- AC adapter (Neo rechargeable only)
- IrDA port for printing and sending to IR-enabled devices
- AlphaSmart Manager software
- AlphaWord Plus and Calculator SmartApplets
- User's guide

Keyboard

- Supports QWERTY, Dvorak, Left and Right Handed layouts.

Size/weight

- Weight: 2.0 lbs. (.91 kg)
- Height: 1.75 in. (4.5 cm)
- Width: 12.4 in. (31.5 cm)
- Depth: 9.75 in. (24.7 cm)

Display

- 5.75" x 1.5" LCD screen can be configured to display two, three, four, five, or six lines of text per screen.

Storage capacity

- Room for hundreds of pages of single-spaced text
- 2MB of storage for SmartApplets

Analyze: Break down a subject (e.g., idea, concepts, event, object) into parts and describe their importance, the relationships between them, and patterns.
Describe: Communicate to the reader a complete and detailed "picture" of the object, events, process, or concept. Details often include: time, place, people, |

```
Select a category and press enter or
-----"move"-----|A=antonyms
- act(v)      - move(v)      |H=help
- carry(v)    - motivate(v)   |esc=exit
```

Neo includes AlphaWord Plus, a feature-rich word processor with spellcheck, thesaurus, Spanish-English word lookup, instant access to eight file spaces, and more.

Power options

- 3 AA alkaline batteries or rechargeable NiMH battery pack.

Built-in word processor

- AlphaWord Plus, an enhanced word processor that provides:
 - Eight active file spaces for one key file access
 - Named files (in addition to the eight active files) for convenient file management
 - Spell Check and Thesaurus
 - User dictionary for adding additional words and terms
 - Linked files for rubrics, homework instructions, or reference materials
 - Find/replace and word count
 - Spanish-English word lookup
 - Built-in help system for quick access to command reference

Compatibility

- Neo is compatible with Macintosh and Windows computers, as well as many USB and IrDA-enabled printers (see www.alphasmart.com for a complete list of supported printers).

Very large font offers easiest text readability.

Neo allows you to display from two to six lines of text per screen to meet the display needs for writers of all levels.

```
Select a Control Panel option:
- SpellCheck Settings
- AlphaWord settings...
↓ Change default SmartApplet font...
```

Use Neo's Control Panel SmartApplet to configure SmartApplet and system settings.
